CHRIS MORRIS

Conway, AR • chrisp317@yahoo.com

PROFESSIONAL SUMMARY

Hands-on technical professional with 6+ years of experience in electrical systems, maintenance, and diagnostics, including leading job sites and ensuring safety and compliance. Strong problem-solving skills with the ability to troubleshoot complex systems and maintain operational efficiency.

Experienced in programming (JavaScript, Python, and C++) with a focus on system logic and debugging. Currently developing a custom Pokémon-style game engine and transitioning into cybersecurity, with a strong interest in system protection and analysis.

TECHNICAL SKILLS

- **Programming:** JavaScript, Python (learning), C++ (learning)
- **Systems:** Troubleshooting, diagnostics, debugging, system logic
- **Cybersecurity:** Networking basics, system security fundamentals
- **Tools:** GitHub (learning), Linux basics, command line
- **Other:** NEC compliance, OSHA standards, equipment maintenance

TECHNICAL PROJECT

Pokémon-Style Game Engine *(Personal Project)*

- Developed a modular game system using JavaScript and JSON-based architecture
- Built map loading, coordinate-based event triggers, and state management systems
- Created reusable scripting logic for NPCs and story progression
- Strengthened debugging, system design, and programming skills

PROFESSIONAL EXPERIENCE

Maintenance Associate / Fuel Station Attendant

Sam's Club — Conway, AR | 2025–Present

- Maintain facility operations and troubleshoot equipment issues
- Monitor fuel station systems and ensure safe, continuous operation
- Assist customers and resolve technical issues efficiently
- Conduct inspections to identify risks and maintain safety standards

Electrical Technician (Lead)

Chris Electric — Maumelle, AR | 2024–Present

- Lead electrical projects independently from start to completion
- Supervise job sites and ensure compliance with NEC and safety standards
- Review and verify work performed by others for quality and accuracy
- Train junior workers and communicate directly with customers on solutions
- Diagnose and resolve complex electrical issues using testing equipment

Electrician (Solar & Electrical)

ArrowPoint Solar — Little Rock, AR | 2022–2024

- Installed and configured solar and electrical systems
- Performed troubleshooting, testing, and system optimization
- Supported team coordination and ensured installation quality

Additional Experience: SunPro (Electrician) • Sun Valley (Apprentice) • Nabholz Entegrity (Electrical/Maintenance)

EDUCATION

Pulaski Technical College — In Progress

CERTIFICATIONS & LICENSES

OSHA 30 • Electrical License • Low Voltage License • CPR Certification • EPA Certification • Forklift Certification

CYBERSECURITY DEVELOPMENT

- Studying cybersecurity fundamentals and system protection concepts
- Learning Python and C++ for deeper technical understanding
- Preparing for CompTIA A+, Network+, and Security+ certifications
